7 Engine N/A 7 Engine Not More Than 1850 or Turbo installed 8 For N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. 60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. And the compressor ambient air inlet must have only one hold. Gasoline engine 30 mm.	
7 Engine Not More Than 1850 7 For N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. Not More Than 1550 8 For N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. 60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. And the compressor ambient air inlet must have only one hold. 30 mm.	
7 Engine Turbo installed 7 Engine Turbo installed 8 For N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of 60 mm. 8 For N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of 60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of Gasoline engine 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of Gasoline engine 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of 30 mm.	22
Image: Not More Than 1550 of N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. Not More Than 1550 of 60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. And the compressor ambient air inlet must have only one hold. Gasoline engine 30 mm.	
8 For N/A engine, there must be only 1 working throttle. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. 60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. And the compressor ambient air inlet must have only one hold. 60 mm.	
60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. And the compressor ambient air inlet must have only one hold. 60 mm. 9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of 30 mm. 60 mm.	cc.
9 The car is allowed to install only 1 turbo with air restrictor. The narrowest part must not exceed 10 cm. Measured from the tip of compressor wheel. And the compressor ambient air inlet must have only one hold. Gasoline engine 30 mm.	
compressor wheel. And the compressor ambient air inlet must have only one hold. 30 mm.	
Diesel engine	
35 mm.	
10 The material of engine block and cylinder head cover must be as factory standard. Holding points must be remained in both	
gasoline engine and diesel engine.	
12 Any gas or liquid substance that means to mix with air in air intake tube as to reduce temperature is not allowed.	
13 Water intercooler is allowed but water pump and any other external spray as to reduce the heat of intercooler is not allowed.	
15 water intercooler is anowed out water pump and any other external spray as to reduce the near of intercooler is not anowed. Manual Transmission	
Sequential + Gear leve	
14 Transmission + 20 kg.	
Sequential + Paddle SI	nift
+ 30 kg.	
15 The suspension mounting points must be the original mounting points of the vehicle model. Do not change, modify, or edit.	
16 The suspension rubber bushing material can be changed to a Ball Joint.	
17 Caliper and carbon fiber disc system.	
18 Shock absorber position and its working system must be remained the same as factory setting.	
19 Suspension system parts must be remained standard as factory setting.	
20 Aero part can be freely installed as it is not harmful to other.	
21 Tail pipe must point out at the back of the car only.	
22 Rim and center lock system.	
23 Fuel tank are free. If installed in the cabin, it must be completely surrounded by a fireproof and shockproof structure.	
24 Allowed to add no more than 5 liters to tank A.	
25 Tyres that allowed to used in the race (Provided from organizer only).	
26 Rear camera must be installed and there must be at least 5" monitor installed inside cockpit in middle console.	-15
27 Must install Apps STT RACE CONTROL	-15
28 Safety system (Roll bar, Racing seat, at least 8 anchors BELT, Electric breaker, Fire extinguisher) and window net at driver side.	-15
